

# RISTO<sup>®</sup> cloudsuite

## Asset Tracking

Organize, Track, Record & Manage Your Assets Remotely

- ✓ YOUR ASSETS AT YOUR FINGERTIPS
- ✓ TRACEABILITY – WHERE, WHO & WHEN
- ✓ TRACK COST & VALUE
- ✓ KEEPING TABS ON MAINTENANCE SCHEDULE

# Asset Tracking Solution

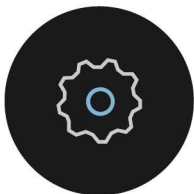

## YOUR CHALLENGES

- Keeping track of assets, status, loan out, location, maintenance and warranty
- To systematically update of new, expired, damaged or loaned assets with minimal effort
- Implementation of accountability for inventory check, audit trail and reports

## OUR SOLUTION

RISTOcloudsuite Asset Tracking Solution is an integrated secure cloud based system incorporating mobile hardware with options for RFID or AutoID technology for a complete asset tracking solution. The system is easily configurable and it allows your organization to track, manage ownership & location of your assets, to collect usage data and to report on all activities related to the assets.

### Easily configured

Flexibility for different sites and requirements

### Tracking of Assets

Easy to list or find details of assets

### RFID / Barcode

Implement tagging of assets for scanning with mobile devices

### Check-In / Check-Out

Simple process to track loan out returned assets with user, date and time stamp

### Ownership Transfer

Transfers of assets between owners

### Location Transfer

Transfers of assets between locations

### Dashboard

Allows real-time access for managers to check and monitor

### Asset Reports

Easy management and printout to track different aspects about the assets
